

John P. Gannon

Collegiate Associate Professor of Environmental Data Science
Dept. of Forest Resources and Environmental Conservation
Virginia Tech
jpgannon@vt.edu

Academic Employment

2023 – present Collegiate Associate Professor, Dept. of Forest Resources and Environmental Conservation, Virginia Tech, Blacksburg, VA

2019 – 2023 Collegiate Assistant Professor, Dept. of Forest Resources and Environmental Conservation, Virginia Tech, Blacksburg, VA

2014 – 2019 Assistant Professor, Dept. of Geosciences and Natural Resources, Geology Program and Affiliate Faculty, Environmental Science Program. Western Carolina University, Cullowhee, NC

Employment

2010-2011 Source Water Protection Specialist, Virginia Rural Water Association, Buena Vista, VA

Education

2014 Ph.D., Forest Resources and Environmental Conservation (Hydrology), Virginia Tech, Blacksburg, VA

2010 M.S., Geosciences (Hydrogeology), Virginia Tech, Blacksburg, VA

2007 B.S., Physics, The College of New Jersey, Ewing, NJ

Teaching Experience

Virginia Tech

Hydroinformatics (Spring 2021, 2022, 2023, 2024)

Environmental Data Science Capstone (Spring 2020, 2021, 2022, 2023, 2024)

Digital Planet (Spring 2020, 2021, 2022, 2023, Summer 2020, 2022, 2023, 2024)

Introduction to Environmental Data Science (Fall 2019, 2020, 2021, 2022, 2023)

Information Technologies for Natural Resource Management (Fall 2019, 2020, 2021, 2022, 2023)

Water, Environment, and Society (Fall 2020)

Special Study: College Teaching in Natural Resources (Fall 2021, 2022, 2023)

WCU

Investigations of Environmental Geology (Fall 2015, 2018, Spring 2015, 2016, 2017, 2019)

Catchment Hydrology (Spring 2019)

Introduction to Geospatial Analysis (Spring 2018)

Geology Field Trip, NC Piedmont (Spring 2017, 2019)

Geoscience Careers (Fall 2016, 2017, 2018)

Principles of Soils and Hydrology for Construction Management (Fall 2014, 2015, 2016, 2017, 2018)

Soils and Hydrology (Spring 2015, 2016, 2017, 2018)

Field Methods and Spatiotemporal Analysis (Summer 2017)

Geology Senior Capstone Research Project (Fall 2014, 2017)

Geology, Landscapes, and Human Psyche (Summer 2015, Fall 2016)

Environmental Data Management and Analysis (Spring 2016)

Free and open source teaching materials

Formal Mentoring

Undergraduate Research Projects

Since VT appointment, not tied to classes, student major indicated after name

Flanagan, Logan. (WATR) Variation in Hydrologic Signatures in the Southern Appalachian Mountains and Continental United States. Spring 2023 - present

Given, Clay. (WATR) Exploring depth to bedrock on Brush Mountain in Blacksburg, VA using a passive seismic sensor. Fall 2023 - present

Bautista, Haley. (WATR) Investigating Brush Mountain groundwater inter-basin transfer. Spring 2023.

Finks, Lindsey. (EDS) Exploring critical zone controls on runoff generation in 92 watersheds across the southern Appalachian mountain region. Fall 2022 - Spring 2023.

O'Brien, Bailey. (EI) Soil moisture dynamics and stream conductivity in a small headwater catchment. Fall 2021 – Spring 2022

Kellogg, Drew. (WATR) Using water isotopic composition to identify water age in two headwater streams outside Blacksburg, VA. Spring 2022

Axford, Micah. (EI) Processing and analysis of recreational trail erosion data. Fall 2021.

Lee, Eugene. (EI) Interactive data visualization of trail user data at the McDonald Hollow trail system. Fall 2021

Mungle, Dillon. (WATR) Runoff generation controls across the Appalachian Mountains. Summer – Fall 2021.

O'Brien, Bailey. (EI) Investigating soil moisture patterns in near stream soils in a headwater catchment. Fall 2021 - Present

- Crum, Kelly. (WATR) Relating streamflow presence/absence to stream bed material in a headwater stream. Fall 2020
- Long, Lyndsey. (WATR) Developing an early-alert system for trail flooding in partnership with the United States Forest Service Eastern Divide Ranger District. Summer-Fall 2020
- Gilliam, Marley; Crum, Kelly; Bratz, Scott. (EI, WATR, EI) Establishing a real-time stream monitoring station at McDonald Hollow in Blacksburg, VA. Spring 2020.
- Crum, Kelly. (WATR) Insights into critical zone structure and subsurface storage from streamflow recession analysis. Fall 2019
- Hogarth, Kaitlyn. (WATR) Development of a web application to visualize a large groundwater level well dataset. Fall 2019

Before VT appointment: At Western Carolina University

- Wright, Charlie; Hogan, Hannah. Developing a method to remotely locate erosional features using a high-resolution digital elevation model. Fall 2019
- Morgan, John. Investigating fine spatial and temporal scale differences in stream water temperature in a headwater catchment. Spring 2019
- Little, Dakota; Ferry, Veronica. Concentration-discharge relationships in a headwater stream. Spring 2019
- Erwin, Elizabeth. Mapping active stream length as a tool for understanding spatial variations in runoff generation. Spring 2017
- Hayes, Isaac. Eco-hydrologic impacts of invasive evergreen shrub species in a headwater catchment. Spring 2017
- Tatum, Josh. Using surface and groundwater chemistry to investigate spatial variations in stream water chemistry and their possible connection to previous land use in a headwater stream. Spring 2017
- Vascik, Bryce. Examining water flow paths and stream response of a disturbed headwater catchment in the Southern Appalachian Mountains, NC, Spring 2017
- Dodgin, Lauren. Utilizing specific ultraviolet absorbance to classify variable lability of dissolved organic carbon collected in terrestrial and stream environments. Spring 2016
- Ward, Chris. A low-cost, multi-parameter water quality sensor. Spring 2016
- Erwin, Elizabeth. Exploring near-stream groundwater measurements in a headwater catchment. Spring 2016.
- Corcoran, Kyle; Bartl, Eric. Dissolved Organic Carbon transport patterns in a headwater stream in Cullowhee, NC. Spring 2015.

Graduate Students

- Morgan, John. Controls on stream intermittency at the Hubbard Brook experimental forest in NH, USA. Ph.D. (Summer 2022 – Present)
- Failor, Meghan. Tree Canopy Cover Response to Land Development Policies in Fairfax County, Virginia. M.S. (Summer 2023 – Present)
- Corcoran, Kyle. Concentrations, mobility, and potential ecological risks of selected metals within compost amended, reclaimed coal mine soils, tropical South Sumatra, Indonesia. M.S. Completed. (Summer 2016 – May 2018)
